Sadie Kline – Candidate for the Hilltop Lakes POA Board of Directors

My name is Sadie Kline, and I am asking for your support and vote for the Hilltop Lakes POA Board of Directors. I am married to Steve Kline, who has three children, and together we are proud to have eight grandchildren.

Professionally, I have been with Kelsey-Seybold Clinic since 2018, where I currently serve as Director of Risk Adjustment. I lead a large team responsible for driving clinical performance and revenue through performance analytics, vendor management, data management, and clinical programs that identify chronic conditions and support early intervention. My career has taught me the importance of accountability, transparency, data-driven decisions, and keeping the bigger picture in mind.

I had the honor of finishing out my dad's term on the POA Board following his passing. Although my time on the Board has been relatively short, I have taken that responsibility seriously and remained committed to ensuring that property owners' interests are at the center of every decision.

One of the most important issues I have stood up for is protecting property owners' rights. I believe no four executive officers should have the authority to amend deed restrictions without the proper voting process and notification to property owners. This was never simply about the changes themselves; it was about protecting our community from a precedent that could undermine the rights of every property owner.

Over the past year, I have worked hard alongside fellow Board members to move our community forward. I believe we have made meaningful progress toward greater transparency and communication, and I want to continue building on that progress. Property owners deserve access to information, accountability from their elected representatives, and confidence that decisions are being made with the community's best interests in mind.

I am an independent thinker who is willing to ask questions, stand by my convictions, and make decisions based on facts rather than influence or personal agendas. I believe responsible leadership means listening to property owners, being willing to have difficult conversations, and doing what is right for the community—even when it is not the easiest path.

I am running because I care about the future of Hilltop Lakes and believe our property owners deserve a voice, transparency, and accountable leadership. I would be honored to earn your vote and continue working toward a stronger, more informed, and more united community.
